IMAGENET: A LARGE-SCALE HIERARCHICAL IMAGE DATABASE

wordnet 3 pdf

WordNet is a lexical database for the English language. It groups English words into sets of synonyms called synsets, provides short definitions and usage examples, and records a number of relations among these synonym sets or their members. WordNet can thus be seen as a combination of dictionary and thesaurus. While it is accessible to human users via a web browser, its primary use is in ...

ImageNet: A Large-Scale Hierarchical Image Database

ImageNet is an image database organized according to the WordNet hierarchy (currently only the nouns), in which each node of the hierarchy is depicted by hundreds and thousands of images. Currently we have an average of over five hundred images per node. We hope ImageNet will become a useful resource for researchers, educators, students and all of you who share our passion for pictures.

Un tesoro es una lista de palabras o términos controlados empleados para representar conceptos.. Proviene del latín thesaurus (‘tesoro’), y este a su vez del griego clásico th?sauros (????????, ‘almacén’, ‘tesorería’). Es utilizado en literatura como thesaurus, thesauri o tesoro para referirse a los diccionarios, como por ejemplo el Tesoro de la lengua castellana o ...

In science, a multiple is the product of any quantity and an integer. In other words, for the quantities a and b, we say that b is a multiple of a if $b = na$ for some integer n, which is called the multiplier. If a is not zero, this is equivalent to saying that b/a is an integer.. In mathematics, when a and b are both integers, and b is a multiple of a, then a is called a divisor of b.

Na matemática, um múltiplo é o produto de qualquer quantidade e um inteiro. Em outras palavras, para as quantidades a e b, dizemos que b é um múltiplo de a caso $b = na$ para alguns n inteiro, isto será chamado de multiplicador ou coeficiente . Se a não é zero, isso equivale a dizer que b/a é um número inteiro, sem resto. Se a e b são ambos inteiros e b é um múltiplo de a, então a ...
